

COMPLETE BAGGING LINES

FULLY INTEGRATED BAGGING LINES

Our strengths cover a broad range of industries including animal feed, food, grains, plastics, chemicals and milling. We offer complete and professional services; from initial system design proposals through project start-up and commissioning and aftersales support. Our integrated lines offer an end-to-end solution; a fully automated bagging and robotic palletizing line solution from a single, US-based, OEM provider.

FULLY AUTOMATIC HIGH SPEED BAGGING MACHINES

- « Open mouth and form-fill-seal packaging equipment
- « Proficiency in free flowing materials and powders
- « Designed for a variety of bag types, materials and sizes
- « Durable and compact design
- « Designed to reduce overall footprint in plant

ROBOTIC PALLETIZING SOLUTION

- « Exclusive integrator of robotic palletizing systems
- « Accurate bag placement and flexibility
- « Low maintenance solution that ensures increased uptime and high reliability
- « Enhanced safety and ergonomics
- « Custom engineered for each application

Columbia/Okura LLC is a robotic palletizing integrator, applying expert knowledge and tools to solve customers "End of Line" production challenges for a diverse range of businesses, products, and applications. We believe in the transformative power of automation.

PRINCIPAC

- « One of the fastest automatic bagging lines available
- « Up to 2000 bags per hour
- « Handles pillow and gusseted bags
- « 10 - 50 kg fill weight

CERTOPAC

- « An innovative and highly efficient bagging machine
- « Up to 1500 bags per hour
- « Handles PP, PE, and paper bags
- « 5 - 80 kg fill weight

ACROPAC

- « Ideal for those switching from manual or semi-automatic bagging lines
- « Up to 600 bags per hour
- « Handles PP, PE, and paper bags
- « 10 50 kg fill weight

OPTIONS

- « stainless steel execution
- « bag top de-aeration unit
- « dustproof filling spout
- « wash-down execution
- « bag vibration device
- « FFS-Combi version
- « evacuation lance
- « ATEX execution
- « bag labelling
- « twin version
