

# CERTOPAC BAGGING MACHINE

## FULLY INTEGRATED BAGGING LINES

Streamline your packaging and maximize efficiency with Columbia/Okura and STATEC BINDER. As the exclusive U.S. distributor since 2018, we bring you STATEC BINDER's flexible, durable, and low-maintenance open-mouth and FFS bagging machines. Coupled with Columbia/Okura's custom-engineered robotic palletizing solutions, we deliver a complete, single-source, automated line. Serving diverse industries from animal feed to chemicals, our integrated systems are designed to meet your precise needs.

### BENEFITS

- « Long lifetime
- « High capacity and reliability
- « Compact design for smaller space requirements
- « Ideal for those switching from manual or semi-automatic bagging lines
- « Options include an entirely stainless steel execution if required

### SPECIFICATIONS

#### Units per hour

Up to 1500 bags

#### Fill capacity

11 lbs - 110 lbs (5 kg - 176 kg)

#### Applications

Pillow bags  
Gusset bags

#### Industries

Agriculture	Fertilizer
Chemicals	Food
Feed	Minerals

Columbia/Okura LLC is a robotic palletizing integrator, applying expert knowledge and tools to solve customers "end of Line" production challenges for a diverse range of businesses, products, and applications. We believe in the transformative power of automation.

## ADDITIONAL SPECIFICATIONS

Bag type	Woven PP, PE, or Paper	Additional options	Bag top de-aeration unit
Product type	Free-flowing bulk goods		Dustproof filling spout
Bag width	12.2 - 24.4 inches (310 - 620 mm)		Wash-down execution
Bag length	24.6 - 42.3 inches (625 - 1075 mm)		Bag vibration device
Air consumption	~70 Nm <sup>3</sup> /h		Evacuation lance
Power supply	3 x 380 - 480 VAC, 50/60 Hz		Bag labelling

## TRANSFORMATIVE AUTOMATION

For high-speed, automated bagging, the CERTOPAC delivers exceptional output, processing up to 1500 bags per hour. This machine handles a broad spectrum of free-flowing bulk materials in pillow and gusset bags. The CERTOPAC's versatility is further enhanced by S and L variants, offering distinct bag magazine configurations and size/weight capacities. Stainless steel options and powdery product adaptations ensure a tailored solution for your specific requirements.

## WORKING WITH US

At Columbia/Okura, we believe automation is the catalyst for unprecedented growth. Beyond robotic palletizing, we engineer comprehensive end of line solutions that drive transformative results for your business.

- « Fully customized and integrated palletizing system
- « Accurate bag placement and flexibility
- « Low maintenance solutions that ensure increased uptime and high reliability
- « Robust end effectors adapted for your application
- « Training, remote support, and OEM parts
